Glen Region, Sports Car Club of America July Sprints Races

The event was held at Watkins Glen International, with all of the sessions occurring on the "long" 3.4 mile course. The event occurred on July 1st and 2nd of 2023. The weekend consisted of six (6) race groups. The races used a sanction number of 23-R-59457.

On Saturday morning, each race group had a 20 minute qualifying session. Following qualifying, each group had a 25 minute race. Group 1 ran before lunch. There was a change where SM2 was moved from group 5 to group 3 after qualifying. The competitors were credited with their times when they moved groups. This is why SM2 moves between qualifying 1 and the following sessions. Each group had their clock reduced to 23 minutes, as there was a forecast of lightning for the afternoon. Thankfully, the lightning did not come. All group got their races in mostly dry. Group 6 started to have sprinkles, but it was not enough to take the track to "full wet."

Sunday morning started with another qualifying session, with each group getting 15 minutes to post a time. Group 1 was a "full wet" session, but the track quickly started to change toward dry in group 2 and beyond. Afterwards, there was a 30 minute race for each race group. The race grid was based upon a merge of the best time from the qualifying sessions and race one. The forecast for Sunday did not look much better, and the races were shortened to 28 minutes. Group 1 and 2 completed their races before lunch. There were sprinkles and light rain in the air all afternoon, but the track did not change to a "full wet" until partially through group 5. Group 6 had to abandon their Sunday race because the conditions were so treacherous that the race could not run. Groups 3 and 5 had their race length shortened only slightly, in both cases for track clean-up.

The timing and scoring group was staffed with 5 on Saturday and Sunday. It was a small team, but the ship ran well. I appreciate all the hard work.
